23 April 2017

Dear Kenridge Primary school

I am Dr Alex Strydom, the practising veterinarian at Fissantekraal Animal Welfare (FAW).

I want to thank you on behalf of FAW and the pets of Fissantekraal for the generous contribution of food, bedding and collars you have made to our organization. As we fully depend on sponsorships, you have contributed more than you could ever imagine.

Due to your contribution we were able, and still are able to provide food to hundreds of hungry tummies. With the winter months coming up, our pets need all the food they can get to keep warm and healthy. You have contributed directly towards that.

I was amazed to see how much food, blankets and collars were sponsored by your school when it was dropped off. You have made a long standing difference in so many lives, and we would like to thank you out of the depth of our hearts. The ones you gave it to (the pets) can't talk, but the wagging tails and excitement in their behaviour when I bag of food is dropped off says a thousand words.

Thank you again Kenridge Primary school, we appreciate the support tremendously.

Anyone is free to visit our website: www.faw.za.org or call any of the numbers on the website if you require any more information. Our clinic is open every Tuesday and Saturday morning in Fissantekraal and you are welcome to pop-in and drop of any unwanted pet products.

Kind and very grateful regards

Dr Alex Strydom and the rest of Fissantekraal (pets, owners and volunteers)
